Oh, say can you see by the dawn's early light,
What so proudly we hailed at the twilight's last gleaming,
Whose broad stripes and bright stars, through the perilous fight,
O'er the ramparts we watched were so gallantly streaming?
And the rocket's red glare, the bombs bursting in air,
Gave proof through the night that our flag was still there.
Oh, say does that star-spangled banner yet wave
O'er the land of the free and the home of the brave?

Description of the Flag

The Flag of the United States has 13 stripes, seven red and six white, with red on the top and bottom. The stripes represent the 13 original colonies that became the first 13 states.

The blue field with 50 white stars is located next to the staff in the upper left corner of the Flag and extends from the top of the Flag to the lower edge of the fourth red stripe. The stars are arranged in alternating rows of six and five representing the 50 states of the United States.

Colors and Symbols of the Flag

RED – Hardiness and valor

WHITE – Purity and innocence

BLUE – Vigilance, perseverance, and justice

STARS - Constellation of the states, each a part of our nation, each a separate state.

The Flag is a living symbol representing our country. It represents the many freedoms, rights and responsibilities entrusted to its citizens. Proper display and use of the Flag is the responsibility of every American.

Celebrating the Flag

Flag Day is June 14. On that day in 1777, the Second Continental Congress authorized a new Flag to represent our new nation, the United States of America.

On Memorial Day 1916, President Woodrow Wilson issued a proclamation calling for nationwide observance of Flag Day on June 14. It was not until 1949 that President Harry S. Truman signed an Act of Congress designating June 14 of each year as National Flag Day.
